慳神有計大比拼 2017

Energy Saving Championship Scheme 2017

獎項 Award

-  慳神總冠軍
Hanson Supreme Grand Award
-  至尊慳神大獎
Hanson Grand Award
-  卓越慳神獎
Hanson Outstanding Award
-  優良慳神獎
Hanson Merit Award
-  踴躍支持團體慳神獎
Hanson Supportive Group Award
-  4Ts 慳神獎
Hanson 4Ts Award

比賽組別 Category

第一組別 Group 1 Category

-  商場
Shopping Mall
-  住宅大廈/屋苑
Residential Building/ Housing Estate
-  辦公室大樓/商業大樓/工業大樓
Office Building/ Commercial Building/ Industrial Building
-  醫院
Hospital
-  酒店
Hotel
-  專上教育院校
Post-Secondary Education Institution

第二組別 Group 2 Category

-  辦公室
Office
-  商舖/餐廳/超級市場
Shop/ Restaurant/ Supermarket
-  非政府機構/社區設施
Non-governmental Organization/ Community Facility
-  學校 (幼稚園/中小學)
School (Kindergarten, Primary and Secondary)

查詢 Enquiry

電話 Tel : 3155 3977 (秘書處 Secretariat)
電郵 Email : eschampion2017@emsd.gov.hk

目的: 表揚在制定節能計劃以減少整體用能量有卓越表現的權範圍體
Objective: To recognize leading organizations in setting targets to reduce overall energy use

截止報名日期 Application Deadline
31-10-2017

Categories

- Group 1*
- 1) Shopping malls
 - 2) Residential buildings/ Housing estates
 - 3) Office/ Commercial/ Industrial buildings
 - 4) Hospitals
 - 5) Hotels
 - 6) Tertiary education institutions

- Group 2*
- 1) Offices
 - 2) Shops/ Restaurants/ Supermarkets
 - 3) Non-governmental Organizations/ Community Facilities
 - 4) Schools (Kindergarten, Primary and Secondary)

**ENERGY SAVING
FOR ALL**

Brief on Assessment Criteria

Framework of Assessment Criteria for Group 1 and Group 2

1. Continual energy saving over 2 years
(1 Sept 2015 to 31 Aug 2017)
2. 4Ts involvement
 - Energy saving **target** with a **timeline**
 - **Transparency** on tracking energy saving results
 - Engaging inhabitants to work **together**
3. Innovation & practicality on energy saving technologies/ practices
4. Technologies & practices can be modelled by other organizations in the same sector

Past energy saving performance

Adoption of 4Ts

Technologies and practices

Role model

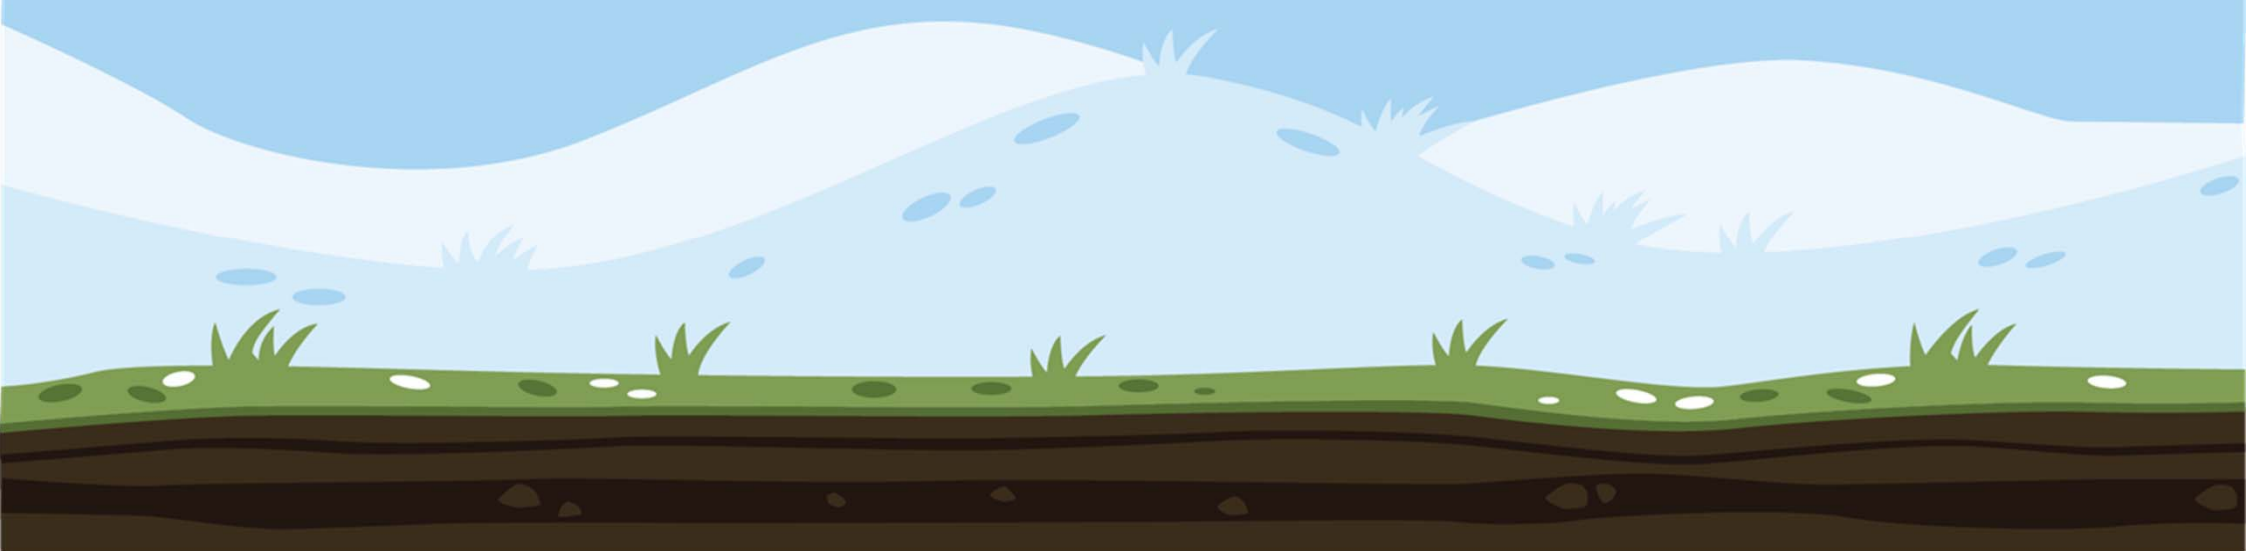

Tentative Program

Period	Tentative Programme
1 August 2017 to 31 October 2017	Registration period
November 2017 to January 2018	Stage 1 assessment – preliminary assessment on applications
February 2018 to March 2018	Stage 1 assessment – detailed assessment and verification of shortlisted applications
April 2018	Stage 2 assessment – interview by Judging Panels
May/ June 2018	Announcement and presentation of awards

**ENERGY SAVING
FOR ALL**

Awards of the Scheme

Proposed Awards for each category

Judging Panel have final evaluation as well as the grades of award for each category of participants

Awards for Each Category	Number of Awards
Hanson Grand Award 至尊慳神大獎	One winner for each category, the highest score based on assessment criteria
Hanson Outstanding Award 卓越慳神獎	Maximum two winners for each category for 2 nd and 3 rd highest score based on assessment criteria
Hanson Merit Award 優異慳神獎	Maximum five winners for each category, depending on number of participants
Hanson Supportive Group Award 踴躍支持團體慳神獎	One winner for each category

Remarks – Winners of “Hanson Grand Award” and “Hanson Outstanding Award” (max. 30 for 10 categories) will be cordially invited to the stage in the award presentation ceremony. Winners of other awards shown above will be invited to attend the ceremony.

Proposed Awards – Cross categories

Judging Panel may decide other awards of cross categories to recognize excellent efforts/contributions by award winning teams.

Cross Categories (2 awards for Group 1, 2 awards for Group 2)

Awards across all categories in each group	Number of Awards
Hanson Supreme Grand Award 慳神總冠軍	One winner, the best out-perform participant among all categories in a group
Hanson 4Ts award 4Ts 慳神獎	One winner, the best 4Ts framework demonstrated by participant among all categories in a group

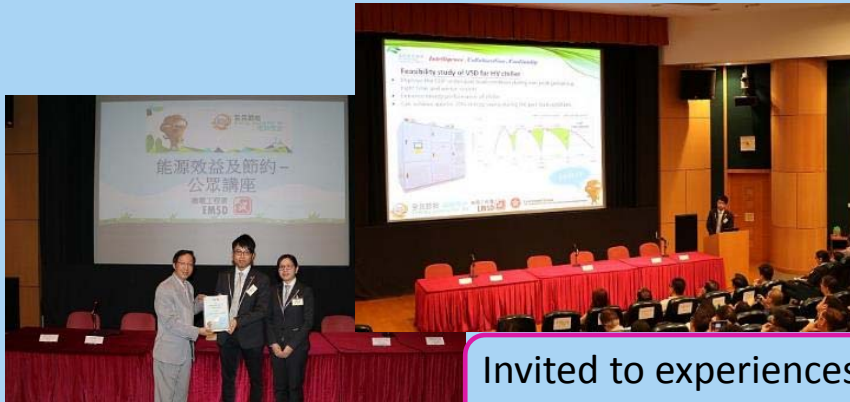

Presentation to 2016 Winners

**ENERGY SAVING

Introduction

Climate Change is a cross-sector, cross-domain subject which has far reaching socio-economic and cultural impacts across the globe. As a member of the global village, Hong Kong needs to respond positively and ready itself for making greater effort to combat climate change.

The Government pledged a new target of reducing 5% electricity consumption in government buildings over the next five years from 2015 to 2020 using 2013-14 as the base year. Major new government buildings and public housing are targeted to achieve a higher green building standard. Moreover, the Government has established a partnership with major stakeholders in the built environment under the 4Ts framework, namely **target, timeline, transparency and together**.

Energy Saving Championship 2017 is the extension of Energy Saving Championship 2016 (Results have been announced. Please [click here](#) for details). 4Ts elements are added in the assessment criteria. Participants are encouraged to set their energy saving targets and timelines and to share their existing and planned energy saving measures. The scopes of categories are expanding to commercial building/industrial building, hospital, hotel, office, shop/restaurant/supermarket, non-governmental organisation.

Your Support

As the community plays an indispensable role when it comes to energy conservation, we would like to appeal for supports from different sectors of organisations by participating in the "Energy Saving Championship Scheme 2017" (the Scheme) and setting targets to reduce their energy consumption comparable to or even exceeding Government targets, and to promote green building design and management.

The Scheme is to recognise leading organisations in the adoption of energy efficient technologies and equipment, application of operational optimisation of energy consuming systems (i.e. retro-commissioning), development of best practices in energy management, promotion of energy saving among tenants and occupants and develop a plan for future energy saving target. Champions of each category will be invited as role models to share experience on application of energy efficient technologies

Objectives of the Scheme

To recognise leading organisations in following aspects:-

1. adoption of energy efficient technologies and equipment;
2. development of best practices in energy management and application of operational optimisation of energy consuming systems (i.e. retro-commissioning);
3. promotion of energy saving among tenants and occupants; and
4. development energy saving plan by 4Ts approach.
